

## TEMPLATE INSTALLATION USER'S GUIDE FOR JOOMLA WEBSITE (for Template Zip file)

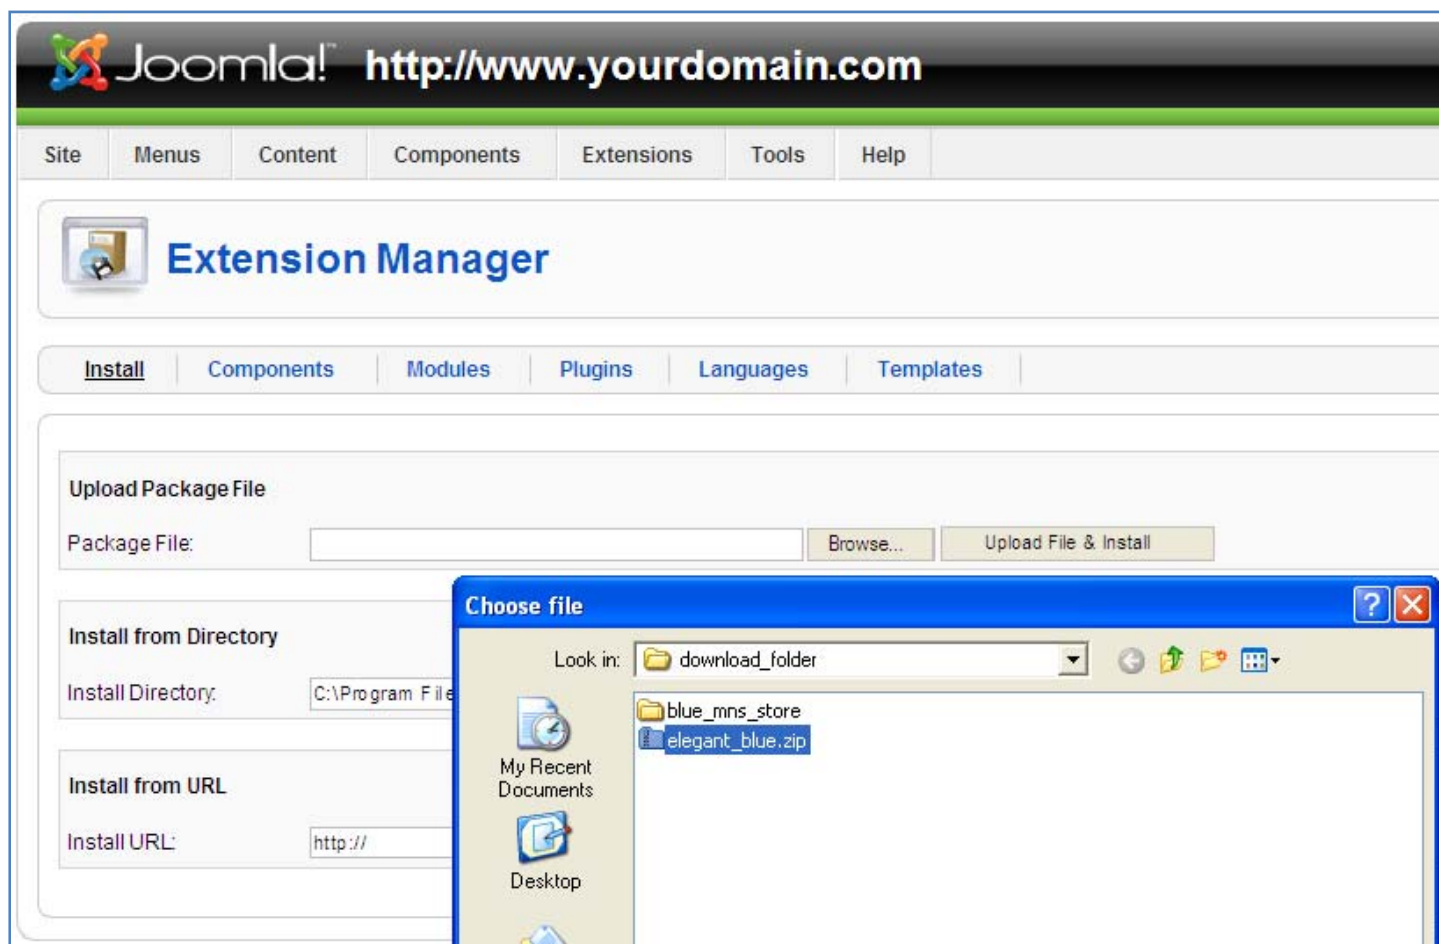

### STEP 1:

Log on to <http://www.yourwebsite.com/administrator/> as an Administrator

**STEP 2:** On the top menu, click on Extensions button. Then select Install/Uninstall as shown in the image below.

Then click on Browse button to upload the purchased template .zip file that you've just downloaded after the payment . Hit Upload File & Install button to install the template to the system. Please see the image below.

**STEP 3:** Select the Template Name by clicking on the radio button, then click Default button on the top of the Template Manager. The yellow star will appear in the Default column which defines your website template. Go to your website <http://www.yourwebsite.com>, the template should take effect right away. Please view the image below.

The screenshot shows the Joomla! administrator interface. At the top, the Joomla! logo and the URL 'http://www.yourdomain.com' are visible. Below the logo is a navigation menu with items: Site, Menus, Content, Components, Extensions, Tools, and Help. The main heading is 'Template Manager'. On the right side of the heading, there is a yellow star icon labeled 'Default' with a red arrow pointing to it. Below the heading, there are tabs for 'Site' and 'Administrator'. The main content area contains a table with the following columns: #, Template Name, Default, Assigned, Version, Date, and Author. The table lists six templates. The second row, 'elegant blue', has a radio button selected and a yellow star icon in the 'Default' column. A red arrow points to the radio button in the first column of this row. At the bottom of the table, there is a 'Display #' dropdown menu set to '20'.
